

TransData Receives National Certification as Women's Business Enterprise

DALLAS, Nov. 20, 2014 /PRNewswire/ -- TransData Inc., a leading manufacturer of advanced power and energy metering products, announced today that it has received national certification as a Women's Business Enterprise (WBE) from the Women's Business Council Southwest, a regional certifying partner of the Women's Business Enterprise National Council (WBENC).

WBENC's national standard of certification implemented by the Women's Business Council Southwest is a meticulous process that includes an in-depth review of the business and site inspection. The certification process is designed to confirm the business is at least 51 percent owned, operated and controlled by a woman or women. By including women-owned businesses among their vendors, corporations, and government agencies, companies demonstrate their commitment to fostering diversity and the continued development of their supplier/vendor diversity programs.

"We are extremely pleased to have received National Certification as a Women's Business Enterprise," said Joan Gleibs, the Chairman and CEO of TransData. "Today, TransData stands as the first and only WBE-certified manufacturer of solid-state electric meters, interval data recorders and electrical power transducers used by electric utilities, independent power producers and industrial concerns to measure and monitor power and energy variables."

To obtain a copy of our WBE Certificate, please visit the "about us" page on our website at <http://transdatainc.com/about-us/> (<http://transdatainc.com/about-us/>) and click the "Certified WBENC" link at the bottom of the page.

About TransData

In business for 45 years, TransData is a WBE-certified small business specializing in the design and manufacture of advanced solid-state energy meters and related products that enable its global client base to more efficiently measure, monitor and control the flow of power and energy variables on the smart grid. Founded in 1969, TransData is a privately-held corporation with headquarters in suburban Dallas. TransData

serves over 2,000 customers in more than 25 countries worldwide, including most of the top 50 largest U.S. electric utilities. More information on TransData can be found at www.transdatainc.com (<http://www.transdatainc.com/>). TransData is a registered trademark of TransData Inc.
